

# **3rd Annual Water Innovations Alliance Conference**

**Innovative Funding Options**

# **Innovative Funding Options**

- **Infrastructure Investment Needs in the US Water and Wastewater Sector are Extensive.**
- **According to the latest US EPA Needs Study for both water and wastewater, almost US\$700.0 billion investment will be required over the next twenty years.**

# **Innovative Funding Options**

- **Grant financing and municipal financing are no longer guaranteed secured options for funding the extensive growing infrastructure investment needs of municipal water and wastewater systems.**
- **An expanded menu of funding sources is now required and the role of innovative PPP structures must evolve.**
